1) **B**

**Question Type: Inference**

At the beginning of the passage, the author writes, "Carly has a large family. She lives with four people." If Carly is a person, and she lives with four people, we can tell that there must be five people in Carly's family. This means **(B)** is correct. The passage does not provide information to support choices **(A)** or **(C)**. Therefore they are incorrect.

2) **C**

**Question Type: Detail**

In paragraph 2, the author writes, "Carly's mom works at the hospital." This lets us know that Carly's mom works at the hospital. Therefore **(C)** is correct. The passage does not provide information to support choices **(A)** or **(B)**. This means they are incorrect.

3) **A**

**Question Type: Global**

At the beginning of the passage, the author writes, "Carly has a large family." After this, the author describes the people and pets in Carly's family. Using this information, we can tell that this passage is mostly about Carly's family. Therefore **(A)** is correct. The passage mentions Carly's pets, Jinx and Diego. They are a part of Carly's family. The author spends more time writing about Carly's family in general. Using this information, we can tell that this passage is not mostly about Carly's pets. This means **(B)** is incorrect.

In paragraph 3, the author mentions that the kids go to soccer practice. This is only one detail in the passage. The author spends more time writing about Carly's family in general. Using this information, we can tell that this passage is not mostly about Carly's soccer team. Therefore **(C)** is incorrect.

4) **C**

**Question Type: Inference**

At the end of the passage, the author writes, "Carly has two pets. Jinx is a small, black cat. Diego is a large, brown dog." Right after this, the author writes, "Carly loves her family!" Because the author mentions Carly loving her family right after Jinx and Diego are described, we can tell it is most like true that Jinx and Diego are part of Carly's family. This means **(C)** is correct. The passage does not provide information to support choices **(A)** or **(B)**. Therefore they are incorrect.

5) **B**

**Question Type: Detail**

In paragraph 4, the author writes, "Carly has two brothers. James is ten years old. Scott is fourteen years old." If James is ten and Scott is fourteen, we can tell that the oldest brother is Scott. This means **(B)** is correct. James is younger than Scott. Diego is a dog. Thus, the passage does not provide information to support choices **(A)** or **(C)**, and they are incorrect.
